

## Are you a leader?????

There's one sure way to find out.

One: Go to a public meeting where the officials are discussing the solution to some problem.

Any Problem.

Two: When it's time for questions and answers ask the following question and make the following comment.

"Sir if this program is implemented will it increase the size, cost, reach and power of the government?"

"We have too much government now!!!"

When the meeting adjourns listen to the crowd of people who surround you.

They are ready for your leadership.
